# BULLOCH TIMES

ESTABLISHED 1892.  
Published Weekly By The  
BULLOCH TIMES PUBLISHING CO.  
D. B. TURNER, Editor and Manager.  
SUBSCRIPTION, \$1.00 PER YEAR.  
Entered as second class matter March 23, 1905, at the postoffice at Statesboro, Ga., under the Act of Congress, March 3, 1879.  
WEDNESDAY, FEB. 27, 1912.

Pretty soon the necessities of life will cost more than the luxuries.

More lawsuits are won before the cases come to trial than afterwards.

The things we do are not mistakes until someone else does them.

Too many people believe too many things that they know are not so.

Some men tell more fairy tales to their wives than they do to their children.

There were 70 volcanoes in the world before Roosevelt or Bryan were born.

There's one nice thing about being poor. No one is likely to ask where you got it.

The worst trouble about marrying a widow is taking the children along on the wedding trip.

The person with plenty of good, red blood coursing through his veins seldom gets the blues.

We ourselves are the only people who have real trouble—our neighbors imagine or enlarge theirs.

A pessimist is often an optimist who has backslid because the things he predicted didn't come true.

Half of the people don't deserve half the praise they get, and the other half don't get half what they deserve.

The man who puts you on the back may be picking out the most vulnerable spot to stick a knife into you.

Peace has been declared in nearly all the South American republics to allow them to recuperate for the spring elections.

The divorce courts wouldn't be so bad if they didn't make it possible for people to go and do the same things over again.

A father wouldn't be nearly so proud of his son if he didn't get into some of the devilry that the old man did when a kid.

In Tennessee Mr. Beech has married Miss Willow. We suppose there will always be a dispute as to which side of the house the family tree originated from.

When you think other people are selfish, just try to think how many unselfish things you have done yourself during the week past.

When you hear something dreadful about a friend, just take it for granted that it isn't so until the proofs are forthcoming, and don't hunt around for the proofs.

## FOR A LONG LIFE

Those Interested, Please Read  
Fresh air and exercise, with proper food and a sufficient amount of sleep, are the essentials.

Under such a regime of living, germs cannot develop, and many diseases are prevented.

Should the system require a tonic, take only such as you know their ingredients—such as Vinol, which is a delicious combination of the health-giving properties of the cod's livers with all the useless grease eliminated in a mild, medicinal wine.

For this reason Vinol is regarded as one of the greatest body builders and invigorators for aged people. It invigorates and builds them up, and keeps them up.

We sell Vinol with the understanding that if it does not give satisfaction the price will be returned.

W. H. Ellis Co., Druggists, Statesboro, Ga.

## Woodrow Wilson the Man.

While the task of selection is a delicate one, on account of the abundance of excellent material from which to make a choice, the nomination of Woodrow Wilson as democratic candidate for president, seems a foregone conclusion. Reports from all over the country seem to indicate that he is the overwhelming choice of the party, and the united efforts of his opponents to hammer him down have but tended to increase his popularity.

The talk of Mr. Underwood of Alabama, as the party standard bearer, is all very good and denotes an amount of local pride that is commendable; he is a big enough man to make a good president if he could be elected. Champ Clark, of Missouri, is also a worthy aspirant and even more available than Mr. Underwood, and Gov. Harmon, of Ohio, is perhaps a head taller than either in the great field of presidential timber. But the sentiment of the party is clinging strongly to Wilson as the most available. The objection that is being urged, that he is not acceptable to the voters of New York, is not serious except as it affects that state alone. Indeed, democracy and the New York interests are not identical. The less acceptable Mr. Wilson is to Wall Street, the stronger the evidence of his democracy. The party may not win without the vote of New York, but it may be equally true that she has won only in name when she grants the concessions Wall street demands.

Woodrow Wilson is a character who can inspire confidence, and his nomination now seems a certainty. After that, his chances for election are good indeed.

## Roosevelt a Candidate.

Hon. Theodore Roosevelt announces that he will accept the republican nomination for the presidency if it is tendered to him, and that he "will adhere to this decision until the convention has expressed its preference."

This announcement was made Monday in reply to a request addressed to him by a recent convention of seven republican governors from various states, that he become a candidate. It is interesting insofar as it promises a division in republican ranks, but further than that the announcement is of little consequence. It has been apparent for a long time that "Terrible Teddy" has been hankering after his old job. He has let it be understood that he is not well pleased with the conduct of affairs at the hands of his amiable successor, Billy Taft. Teddy has all but said there is no man quite capable of managing the affairs of this country except him, and it is no surprise that he has allowed himself to hear the gentle wooings of his admirers to return to the strenuous life.

But his attempt to return will perhaps be a failure; Taft has hold of the machinery of the party, and will not lay it down without a fight. It is perhaps true that Mr. Roosevelt would be a harder man for the democrats to defeat than Taft will be, but the republican party will hardly dare to repudiate its leader in a crisis. Let it be hoped, for the good of the democratic party, that they will not, for while Taft as the nominee, it looks like easy going to Wilson or Harmon on the democratic ticket.

Notice.  
The members of Bulloch county Farmers' Union will discuss the "Cotton Situation" at their next regular meeting, Saturday, March 2nd. Let every local send a full delegation. F. M. ROWAN, Sec.-Treas.

How Cold affects the Kidneys.  
Avoid taking cold if your kidneys are sensitive. Cold congests the kidneys, throws too much work on them, and weakens their action. Serious kidney trouble and even Bright's disease may result. Strengthen your kidneys, get rid of the pain and soreness, build them up by the timely use of Foley Kidney Pills. Tonic in action, quick in results.

Petition to Amend Charter.  
GEORGIA—BULLOCH COUNTY.  
To the Superior Court of said County.  
The petition of Brooks Simmons, J. E. McCroan and J. H. Brett, stockholders of The Simmons Company, a corporation named by the superior court of said county, on the 28th day of April, 1900, and whose principal office and place of doing business is in said county, desire an amendment to the charter of said corporation as follows:  
Petitioners desire an amendment to said charter, changing the corporate name from "The Simmons Company" to "Brooks Simmons Company," as allowed by statute for such cases made and provided.

Statute original charter was amended by an order granted by the judge of the superior court of Bulloch county, October 28th, 1900, increasing the capital stock of said corporation from Fifteen Thousand Dollars to Forty-five Thousand Dollars, with the privilege of increasing said capital stock to an amount not exceeding One Hundred Thousand Dollars.  
Petitioners desire that said charter, with the amendment thereto, be amended by substituting in lieu of said amendment the following: That the capital stock of said corporation shall be One Hundred and Twenty-five Thousand Dollars divided into shares of One Hundred Dollars each and petitioners desire the right to increase at any time the said capital stock to an amount not to exceed Two Hundred and Fifty Thousand Dollars.  
Petitioners show that the full amount of the capital stock of One Hundred and Twenty-five Thousand Dollars has been paid in.  
Wherefore they pray the passing of an order granting the amendment asked for.  
FRED T. LANIER, Petitioners' Attorney.

GEORGIA—BULLOCH COUNTY.  
I, A. E. Temple, clerk of the superior court of said county, do certify that the foregoing petition was filed in the clerk's office of the superior court of said county on the 19th day of February, 1912. This February 19th, 1912.  
A. E. TEMPLE, Clerk Superior Court Bulloch Co., Ga.

Smith-Boroughs.  
(Savannah News, 27th.)  
Judge and Mrs. J. Hartbridge Smith, of Eden, Ga., announce the marriage of their daughter, Mary Elizabeth, to Mr. Samuel C. Boroughs, of Statesboro, Saturday afternoon, February 24, at the parsonage of the First Presbyterian church, Savannah, the Rev. W. Scott Moore officiating.

First La Grippe, then Bronchitis.  
That was the case with Mrs. W. S. Bailey, McCrory, Ky. "My wife was taken down with a severe attack of la grippe, which ran into bronchitis. She coughed as though she had consumption and could not sleep at night. The first bottle of Foley's Honey and Tar Compound gave her as much relief that she continued using it until she was permanently cured." Sold by Lively's Drug Store.

Settled Weather Coming?  
Mr. Mike Bland, the well known weather forecaster, was in the city Saturday. Asked to venture an opinion on the approaching weather conditions, he said that he expected the weather to become settled about March 1st and remain so for two weeks; then he predicts a cold spell for about the 16th.

Mr. Bland has established a reputation locally for his accuracy in foretelling the weather, and it is generally hoped that his reputation will be maintained by the conditions promised for the next two weeks.

### STATE BOARD OF HEALTH

#### WILL ISSUE MONTHLY LETTER

### WILL TRY TO ASSIST GEORGIANS IN IMPROVING HEALTH

Atlanta, Feb. 20.—Believing that a series of short newspaper letters dealing with sanitation and health subjects will appeal to the people of Georgia, and result ultimately, through the dissemination of information regarding sanitary methods, in a material decrease in Georgia's death rate, the Georgia state's board of health has inaugurated a periodic press service, which will be offered for publication to every newspaper in the state.

These articles, brief and to the point, will be based on the axiom that everyone seeks and desires to avoid disease; their purpose will be to tell "how to do it"—to supply the ounce of prevention that will make unnecessary the pound of cure.

Thanks to latter-day educational methods and the growing circulation of good newspapers, people everywhere are becoming more and more impressed with the importance of proper and effective sanitation and every year brings a wider extension of its applied principles.

But the great work is yet to be done, and it must be done by appealing to the masses through the individual. To awaken in the individual everywhere a sense of the ever-present emergency, is the work the board hopes to accomplish. That done, there will be no further question of the application of proper sanitary methods.

Typhoid fever, for example, is a preventable disease; but how many are there who realize the importance of applying methods of prevention until suffering takes toll of the family in prolonged illness or in death? Who thinks to lock the stable only after the horse is gone?

And yet it cannot be questioned that people generally would apply preventive methods, if they understood always how to do it; particularly if they realized that absence of disease does not mean immunity and that it is waiting all ways to attack where weakness offers opportunity.

In its press service the board proposes to deal with these subjects specifically and in simple terms; to tell what to do and how to do it, satisfied that if the information is generally applied, it will result in materially improved health conditions and a consequent lower death rate throughout the state.

### "The Uptown Church"

always wishes to set before those who attend its service a menu of the most wholesome food. The table which we spread may not be served with the most palatable dainties—such may not be altogether wholesome—but we do propose to give you something that will make bold corpses, strengthen the backbone and build up muscle. We guarantee that if you will take our viands and properly digest them, you will make a stronger and better Christian, and better able to resist sin and serve God.

Here is our bill of fare for next Sunday: For the 11 o'clock meal, "The Divine School," and for the evening repast, "The Most Profitable Business in the World." We thank you for noticing our call. Come and be fed.

PASTOR, C. H. PARRISH, Chairman.

**Atwood's Mill Pond to be Fished.**  
On Thursday, March 14th, I will fish my mill pond. Shares for the same are now for sale; 100 shares at \$3.50; to be fished one day only. Pond is well stocked with fish; has been five years since fished last. J. W. ATWOOD, R. F. D. No. 1, Register, Ga.

**To the Democratic Voters of Bulloch County—Notice:**

We ask you to assemble in mass meeting in the court house at Statesboro on Monday, March 4th, at 11 o'clock, for the purpose of electing a chairman and an executive committee, and to attend to such other matters as might come before the meeting. This 20th day of Feb., 1912.

C. H. PARRISH, Chairman.

**J. L. RENFROE, Secretary.**

**Jenkin's Wants More Land.** (Milken News.)

There is a movement on foot to increase the territory of Jenkin's county.

Garfield and its immediate territory are, so it is said, desirous of coming into Jenkins county. The part interested is mostly from Emanuel county, but would also include a small strip from Bulloch county.

Senator O. B. Aaron is preparing the introduction of a bill to this effect. It is also probable a petition will be circulated among the interested citizens.

Judge R. P. Jones will have charge of the matter for the parties.

This would add some desirable citizens to our county and we earnestly hope they will succeed.

### Ticks for 106 Years

#### Without Losing a Tick

Whitesburg, Ky., Feb. 17.—After ticking faithfully for 106 years, during which period it has accurately kept the time for succeeding generations in one family, a watch belonging to John W. Wright has just been reported here for the first time in its existence and started on another century.

Now, that was a good long time to run on tick, wasn't it? The Times would like to know just how many ticks that watch has made. Can some school boy or girl tell us? Let us hear from them, and see how many can compute the number, to be published in our next issue. Take three ticks per second as a starting point; give number of ticks per day; 365 days in the year, and an occasional leap year; bear in mind the omission of leap year in 1900. Now, give us the figures.

**Shingles for Sale.**

Veterans Will Have Usual Parade at Re-Union

Macon, March 4.—The executive committee and the chairmen and the other members of the individual committees of the 1912 reunion held a meeting in the auditorium of the chamber of commerce on Thursday night.

The different committees reported great progress in their work, and that all is being done at this time that can be accomplished.

The matter of the parade was gone into at some length, and it was agreed that there is to be a parade as usual at all reunions in the past 21 years, and that no changes will take place at Macon in the parade program.

The following resolution was introduced by Col. J. W. Preston and was unanimously adopted and referred to General Chairman Walter A. Harris and Capt. J. W. Wilcox to take up with General Walker and adjust as the resolutions read. It was the opinion of those present that they had the right to say whether we would have a parade at Macon or not.

"Therefore, be it RESOLVED, That the manner of the formation and the organization of the parade to be made at the approaching reunion in the city of Macon should be arranged and governed entirely by the entertaining city, and, in conformity with any and all essential points as to the using of horses, carriages, automobiles and other vehicles, and decorations of the places occupied by them in the parade, and as to their sponsors and maids of honor as has been hitherto practiced.

"RESOLVED, That it is desirable that the routes of the parade should be as short as practicable, and as suggested, long enough to traverse such parts of the streets of the city as will furnish the greatest number of people who attend the reunion, in the shortest route, to see the most of the parade."

**A New Enterprise**  
Established in Statesboro

Owing to the large amount of optical work I have been doing, I have found it necessary to add extensive optical machinery, whereby I can fill prescriptions without delay my friends. I am now manufacturing my own spectacles and eyeglasses. After eye examinations are carefully made, the glasses are ground out of the raw material to fit any eye. You can see your glasses being ground.

I also have several interesting bargains in gold jewelry, gold watches, diamonds and other goods. I have my store securely arranged to carry the very finest goods on the market, and when you wish to see nice goods, just ask for them and we can show them to you with pleasure. We are also manufacturing gold goods to order, such as mounting and charging rings, making brooches and stickpins to order.

I have also the agency for several of the very best silverware factories, and can give you bargains which will save you money on every purchase. Call and inspect the new enameled jewelry, which is entirely new, such as hat pins, bar pins and Bouquet Holders—the very latest.

## No New Candidates: Many are Expected

With the date for the county primary definitely fixed, it was generally expected that there would be a few more accessions to the list of local candidates this week; but so far there have been no new developments.

There is still a vacancy for a representative's place in the legislature, which seems to cry in vain for some good man to come along and make the sacrifice. Numerous probabilities are to be heard of, but no one has yet thrown his hat into the ring. Mr. H. I. Waters was in the city Monday, and stated that he had the matter under serious consideration, while Mr. M. J. Green was also stirring around with an apparent air of interest in the same direction. It is said that Hon. John C. Denmark, of the Bay, also has the matter under advisement, while from the upper part of the county one hears mention of W. E. Jones, L. H. Kingery, J. A. Lahier, A. A. Turner, and J. S. Franklin. Though the time is comparatively short there is no occasion for despair—some good man will yet heed the call of his country.

Among other strong political rumors is the almost certain entry of Col. F. T. Lanier in the race for reelection as solicitor of the city court. One also hears mention of Dan Riggs for the clerkship of superior court, in opposition to T. J. Denmark, who is already in the race.

Out of the entire bunch of possibilities, our columns ought to show some new announcements within a few days.

**Judge Moore a Candidate.**

The announcement of Judge S. L. Moore for reelection to the office of ordinary, will be seen in this issue. Judge Moore has occupied the office for the past twelve years, and will be a strong factor in the coming race, in which he is opposed by W. H. Cone, J. W. Williams, C. H. Anderson and J. G. Brannen.

R. G. Collins, postmaster, Barnegat, N. J., was troubled with a severe grippe cough. He says: "I would be completely exhausted after each fit of violent coughing. I bought a bottle of Foley's Kidney and Tar Compound and before I had taken it all the coughing spells had entirely ceased. It can be beat." Sold by Franklin Drug Co.

**State Distributing Will**  
Resistant Cotton Seed

The Georgia state board of entomology is now shipping out their resistant cotton seed. Any farmer who has the wilt (or black root) disease of cotton on his plantation may secure a bushel of this resistant cotton seed free by applying to E. L. Worsham, state entomologist, Atlanta, Ga., or A. C. Lewis, assistant entomologist. They are also sending out a small quantity of the iron and Brabham cowpeas, which are resistant to root knot or nematode worms. The seed are sent out by freight collect. Parties desiring any of these seed should apply at once as the supply is limited and they are going very fast.

Mr. A. C. Lewis, assistant state entomologist has now been working on this disease for seven years and has secured by continued selection and hybridizing several strains of cotton that are very resistant to the wilt disease. These strains are as productive as most of the other varieties commonly grown, and branching like them. Mr. Lewis is now working to secure an early strain of resistant cotton that will do to grow under boll weevil conditions. When the boll weevil reaches Georgia, which will be in two or three years, the late varieties of cotton cannot be grown, as they do not mature early enough to escape the ravages of the boll weevil.

## PRIMARY IN MAY FOR COUNTY OFFICERS

PEOPLE SPEAK AGAINST LONG CAMPAIGN

In mass meeting assembled last Monday, the voters of Bulloch recorded themselves in favor of an early primary. The date agreed upon is the second Wednesday in May, unless the presidential primary shall be set for a date in May, when the executive committee of the county is authorized to call the county primary on the same date.

The state committee will act on Tuesday of next week, so that it will soon be known positively what date is fixed for the county primary.
